RE: S00859 SP™859 HIT SQUAD™ INDUSTRIAL INSECTICIDE (AEROSOL)  
Category Code: F2  
NSF Registration No. 127709

Dear Mrs. Tina Karniotis-Thomas:

NSF has processed the application for Registration of **S00859 SP™859 HIT SQUAD™ INDUSTRIAL INSECTICIDE (AEROSOL)** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2009), which are available at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

**This product is acceptable for use as a Residual Pesticide (F2) provided its use is generally restricted to inedible product areas or outside premises where exposed food products are neither processed nor stored in open containers. The product may be used in edible product areas for crack and crevice treatment provided applicable directions appear on the EPA registered label. Such use is acceptable provided the pesticide is applied after processing operations have ended, exposed food products and packaging materials are removed or protected, the treated area is ventilated and cleaned thoroughly before processing operations are resumed, and the treated crack and crevices are sealed.**

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)). The NSF Registration Mark can be downloaded by clicking the "Download Registration Mark" link on the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing.

Sincerely,

Amanda Phelka
