

BRAKE & WHEEL

BRAKE & WHEEL SERVICE PRODUCTS

Kent Automotive helps you save time and money while still using top-of-the-line products for brake and wheel servicing. We'll set you up with a complete selection of only the products you use, so there's no excess inventory. With the right products for the job and your Kent Representative managing your inventory levels, you can approach every repair with confidence and profitability in mind.

We're Your Partner In Profitability

Wheel Weights

Our wheel weights have a proud seal of approval: they're used and trusted by OEMs. Kent Automotive's wheel weights are manufactured with high-density zinc, steel and lead, and poly-coated for longevity. Wheel weights are available in all popular sizes and configurations for precise balancing and steady shop throughput.

- Available in starter kits and assortments
- Adhesive weights available in strips or rolls
- Solutions for passenger vehicles and heavy-duty trucks

Tire Valves

- Repair vehicle and light truck tires quickly and easily with Kent Automotive's line of tire valves
- Variety of lengths and styles available for different applications

Tire Changing Parts

- Mount and demount heads for use on popular Hunter models
- Easily change tires with a leverless tool head
- Protect jaws and rims

Quill Tire Patches

- Patch any repairable area of radial or bias-ply tire from the tread to the sidewall
- Metal quill for quick installation
- Self-vulcanizing
- Restore tire condition and driver peace of mind

Hydraulic Brake Tubing and Fittings

- No need to stock pre-formed lines
- Double-wall construction to prevent kinks and ruptures
- Easily shaped by hand
- Double flared ends with nuts

Kwik and EZ Fill System Plus

Skip the expense and waste of aerosol cans and go with a bulk filling system from Kent Automotive. Our easy-to-use Kwik and EZ Fill System works with five-gallon pails or 55-gallon drums, putting time back into your day and profit back into your business. Fills and charges 16 oz. or 32 oz. containers in one step with your shop air.

Brake & Parts Cleaners

Eliminate the grease and dust that can build up on automotive brakes.

- Features all-position spray valve and extension tube
- Safe for rubber parts
- Dissolves and lifts contaminants
- Dries completely – leaves no film or residue
- Deep penetration thoroughly cleans pads, shoes, etc.
- Safe for rubber parts
- No CFCs
- Non-chlorinated
- Aerosol features an all-position spray valve that blows dirt off quickly and an extension tube for hard-to-reach areas
- Pails and drums are compatible with Kent's Kwik and EZ Fill System

Rusty 2000 High Temperature Lubricant

Ensure consistent lubrication over the long haul with Kent Automotive's high-performance copper-based grease. Ideal for high-temperature and high-moisture environments and metal-to-metal contact, this product offers flexible, smooth operation.

- Resists water washout
- Lubricates up to 1,800°F
