

PROBLEM SOLVER

PROBLEM:

Most brass fittings are difficult to work with and take up time and space.

- It takes time to look for the proper sized part.
- Installation is difficult and time-consuming.
- Specific styles are required for specific applications.
- Most are one-time use.
- It is difficult to properly align fittings to tubing.

SOLUTION:

Instant Air Brake Fittings

- Instantly connects and disconnects, savings of 80% on labor.
- D.O.T. approved — used for air brake assemblies and everyday applications.
- Reusable.
- 360° swivel elbows and tees.
- Working temperature: From -40°F to 200°F (-40°C to 93°C).
- Working pressure: 250 PSI (17 Bar).

APPLICATIONS:

- Air horns
- Air-operated mirrors
- Wiper motors
- Shutter stats
- Air-operated clutch fan
- Fifth wheel
- Operating gauges
- Air-operated seats
- Air toggle switches
- Heaters
- Window opening and closing cylinders
- Door locks
- Cab tilt cylinders
- Main frame air lines
- Gear shift
- Transmission

INDUSTRIES:

- Automotive
- Construction — heavy equipment
- Equipment Rental
- Forestry
- Government
- Oil & Gas
- Transportation – Bus and Truck
- Waste Management
