

PROBLEM SOLVER

PROBLEM:

Most glass cleaners run on vertical surfaces and don't work efficiently.

This Causes:

- Streaks and hazy films to be left behind.
- A strong and hazardous ammonia smell to linger.

SOLUTION:

Ogle Glass and Hard Surface Cleaner

- Cleansing foam clings to vertical glass while you wipe.
- Leaves surfaces streak-free and with no hazy film.
- Lifts off dirt, fingerprints, smoke films, grease, and most other messes.
- Leaves a light, fresh fragrance.

APPLICATIONS:

- Cleans any non-porous, hard surface.

INDUSTRIES:

- Automotive
- Construction
- Education
- Facility maintenance
- Equipment rental
- Hospitals
- Hotels
