

## PROBLEM SOLVER

Many Customers Have Experienced The Following:

**DRUMMOND™**  
A LAWSON PRODUCTS BRAND

### **PROBLEM:**

#### **Snow blowers, plows and shovels that become loaded and clogged with snow and ice buildup**

- Blower chutes that become clogged with snow buildup, reducing efficiency and slowing snow removal
- Shovels and plows that become caked with snow and ice
- Grass clippings stick to mower decks, reducing efficiency and leaving grass clumps
- Corrosion of seasonal equipment when in use and during off-season storage

### **SOLUTION:**

#### **Drummond™ Sluff Snow Plow Treatment**

- Leaves a non-stick surface that prevents snow and ice buildup, increasing snow removal capacity
- Prevents caking on shovels and plow blade
- Keeps grass clippings from sticking to mower decks – grounds equipment operates more efficiently
- Leaves a coating which prevents the formation of rust and corrosion – ideal for protecting seasonal equipment during storage periods

**“Let me show you how it works”**

### **APPLICATIONS:**

- Snowplow blades
- Shovels
- Mower decks
- Snowblower chutes and augers
- Dump truck beds
