

PROBLEM SOLVER

PROBLEM:

Drain lines often clog with grease and become unusable.

This Causes:

- Unpleasant odors in drains and grease traps.
- Expensive repairs.
- Contact with cleaners that contain harsh acid or caustic ingredients.
- More time spent cleaning grease traps.

DRUMMOND®
A LAWSON PRODUCTS BRAND

SOLUTION:

Drummond® Zymox Bacteria and Enzyme Waste Digester

- Chews through organic waste and dissolves grease without acids or caustics.
- Reduces cleanouts and emergency service calls.
- Contains non-pathogenic bacteria that digest grease upon use and over time.
- Eliminates odor.

APPLICATIONS:

- Grease traps
- Septic tanks
- Drains
- Sludge lagoons and ponds
- Lift stations and wet wells

Prevents clogs and increases biological activity
