Ceramic Detail Spray

Kent's Ceramic Detail Spray is one of the simplest ways to add ceramic protection to automotive surfaces. Ceramic Detail Spray can be used as a standalone detailer. The unique formula delivers exceptional gloss and slickness to the treated surfaces, along with unparalleled surface protection. Kent's Ceramic Detail Spray can be used on both wet and dry surfaces and can be used as a clay lubricant. The formula is highly substantive so only a few sprays per panel are needed for adequate coverage. One application lasts up to 3 months. Use ceramic detail spray on all exterior surfaces, including glass, plastic trim, chrome, moldings, and wheels.

- Premium gloss and finish
- Fast and easily applied ceramic protection
- Ready to use formula

Vents and Odor

Professional Odor Eliminator

Kent's Professional Odor Eliminating System is the newest solution for eliminating vehicles odor. Professional Odor Eliminator is effective in eliminating odors from pets, wet carpets, smoking, food and more. Professional Odor Eliminator can be applied to the entire interior of a vehicle, including the A/C system and trunk and requires no clean-up once applied. In addition to removing odors, the profession-strength formula eliminates airborne allergens such as mildew, mold and bacteria that come from your A/C vents. Professional Odor Eliminator acts as a disinfectant, leaving your cars and A/C system smelling clean and new. Use 1 bottle per vehicle.

- Professional odor control
- Freshens air and destroys odors
- Effectively removes smoke and pet odors

Dispensing Equipment

3/4" Faucet

Drip-free plastic faucet fits any standard 3/4" NPT container opening on 5-gal. Deltangular jugs and most drums.

- Chemically-resistant
- Opens and closes with only a 1/4 turn

Item No.	Pkg. Qty.
DD1013	1

Bottle and Faucet

Heavy-duty rectangular polyethylene dispensing container. A sturdy molded top handle and bottom recessed hand grip make handling easy. Embossed graduations in 1/2-gallon increments make monitoring and filling a snap.

- Two fill openings for flexibility
- New, improved faucet gasket seals tightly and won't drip

Item No.	Pkg. Qty.
DD1187	1

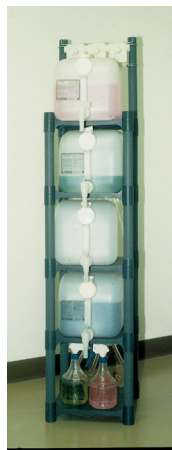

Storage

Tower of Power

Convenient storage for four 5-gal. jugs of pre-diluted, ready-to-disperse products. It can support up to a 200 lb. load. The front-load-only feature prevents accidental slippage through the side or back.

Item No.	Pkg. Qty.
DD103	1

Wash/Spray

Garden Hose Lightweight Hybrid Polymer

Flexzilla® Garden Hose is engineered with a lightweight flexible hybrid polymer to lay flat and not kink under pressure. It is easy to maneuver around trees, bushes and other obstacles.

- Extreme, all-weather flexibility
- Won't kink under pressure
- Lightweight, coils easily
- Durable, abrasion-resistant cover
- Leak-free o-rings
- Drinking-water safe
- 3/4" x 50'

Item No.	Pkg. Qty.
1528148	1

Wash/Spray

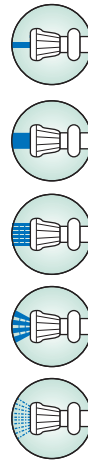

Monsoon Professional Hose Nozzle
 Transform any garden hose into the ultimate washdown tool

This rugged fire hose nozzle design is built to last. Rubber outer covering prevents chips, dents and scratches on equipment, and provides an ergonomic comfort-grip. Patented two-way shut-off for easier use. Adjust the spray pattern for any job, from a soft broad fan to a powerful solid stream.

- Constructed of aircraft aluminum, stainless steel, fiberglass-reinforced nylon and rubber
- Can deliver up to 180 PSI
- Standard flow rate at 40 PSI inlet pressure is 13 gallons per minute

For maximum performance use a 5/8" or larger water hose

Item No.	Pkg. Qty.
61323	1

61323

Proportioner

The Dial-a-Blend System

The easy way to mix up to four separate products, each with its own specific dilution rate. Features color-coded, threaded metering tips that let you select the dilution rate you need – from 1:512 to 1:4. Action-gap backflow preventer protects water supply.

Item No.	Pkg. Qty.	Flow Rate

Cleaning Equipment - Tornador

Tornador Black

The Tornador® Black works with an air compressor to blast cleaning solution into crevices not reached by hand. The cone-shaped nozzle and oscillating tip create a tornado cleaning action that cleans hard and soft surfaces like nothing you've seen before.

- Dirt and grime are immediately released from fabrics, carpet, and solid surfaces.
- Releases a fine mist of cleaning solution that does not over-saturate surfaces. Dirt and grime will quickly release from the surface, wipe with a microfiber towel and turn the dial to shut off the water. Use the compressed air to dry the cleaned area.
- Uses an air regulator to change the working pressure directly on the tool. Meaning that the pressure and cleaning fluid can be adjusted.
- Interior Use: on dashboard, door panels, steering wheel, fabric upholstery, carpet, floor mats, and between seats. Cleans tough-to-reach places between seats and in seams.
- Exterior Use: on fabric convertible tops, body seams, detailing of wheels, and emblems.

Item No.	Pkg. Qty.
1635382	1

Find more replacement line parts and accessories at

Tornador Foam Gun

The Tornador® Foam Gun allows you to presoak the vehicle with clinging foam. The foam stays where it's sprayed. As you wash the vehicle, there is a layer of light foam between your mitt and the paint

- Works with an air compressor capable of producing 60-90 psi of air pressure.
- The unique barrel on the gun mixes the shampoo and pressurized air to create a blizzard of foam.
- The amount of foam can be adjusted using a regulator (sold separately).
- Can be used with any foaming cleaner, such as car wash soap, carpet and upholstery cleaners, all purpose cleaners, and non-acidic wheel cleaners. Interior shampoos and car wash soaps can be diluted per the manufacturers' instructions prior to adding them to the Tornador's reservoir.
- Includes: gun with a 30 oz. jar and an extra cap for the jar. Air compressor required to operate. Two fittings are included that attach to the diffuser cap: Narrow nozzle and wide nozzle.

Item No.	Pkg. Qty.
1635384	1

Regulator sold separately

Find more replacement line parts and accessories at

Tornador Air Blow Gun

The Tornador® Air Blow Gun is used to remove debris such as crumbs, trash and dust from its hiding spots inside the car and aids in drying the exterior and engine area. The powerful blast of air cleans and dries where you can't reach, to complete your detailing job faster.

- On the exterior, blow moisture out of door, trunk and hood jambs. Blast water out of body seams and from around the windows and mirrors to avoid drip marks.
- Under the hood, dry out the engine compartment so you can dress and polish engine components.
- Works with an air compressor operating between 60-90 psi.
- To clean, place the nozzle in a bucket of soapy water and depress the trigger once or twice to remove dirt from cone.

Item No.	Pkg. Qty.
1635383	1

Regulator sold separately

Find more replacement line parts and accessories at

Dynaswivel® Air Line Connectors

Ensure excellent flow characteristics while reducing operator fatigue and risk of repetitive motion injury. These lightweight, resilient, industrial-quality connectors swivel 360° at two pivot points to allow the air line to drop to the floor, resulting in increase maneuverability.

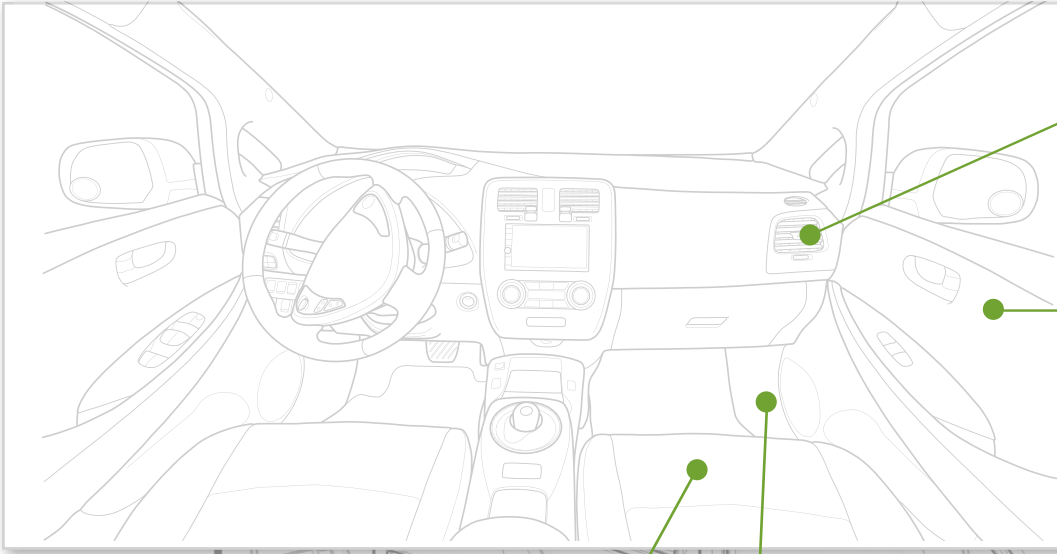

- Works in any position
- For use with any air tool, including percussion tools
- Non-marring composite construction
- 1/4" male and female NPT connectors

Important: Do not exceed 150 PSI. Do not overtighten connections, maximum torque value 20 ft./lbs.

Item No.	Pkg. Qty.
27175	1
