

Gymkana 994 Key Machine

The Gymkana 944 Key Machine is dynamic, universal and compact. Its self-aligning U clamp, along with a single cutter and tracer, accommodate the majority of laser and double-sided edge cut keys, eliminating the need for tip-stops or adapters for most vehicles.

- Cuts high security keys, automotive edge cut keys, tibbe keys*, VATS keys
- Cuts by code, de-code (duplicate) and depth
- Cutting speed and the axis are adjustable to cut various key materials
- Includes 7" color touch screen console with a complete automotive database
- LED - lighted cutting bay
- 2-year factory warranty and 2-years of free software updates

Available Leasing Options for Gymkana 994 Key Machine

Did you know Kent Automotive offers a low-payment leasing option on a new key machine?

Kent's lease-to-own program is a great opportunity to avoid the up-front expense of purchasing a machine. Instead, turn your payment into a more easily manageable low monthly payment. Leases are offered in flexible terms to meet the needs of all customers and can range anywhere from 2-5 years. At the end of the lease, you own the machine. Price along with lease length and credit score will determine the final monthly payment amount.

Ask your Kent Representative today for details on our lease-to-own program and to find out your low monthly payment.

Note: Each lease program has a one-time processing fee, assessed on the first month's bill. A security deposit may be required for some programs, also assessed on the first month's bill.
