

PROBLEM SOLVER

Many Customers Have Experienced The Following:

PROBLEM:

Ordinary metal storage cases

- Not durable
- Poor drill bit protection
- Drill bits rust
- Case does not close properly

SOLUTION:

Lawson High-Impact Storage Cases

- Made of high-impact polymers to withstand workshop abuse
- Airtight and watertight cap prevents drill bits from rusting
- High-impact storage cases are Lawson-tough – you can drop them, slam them, bounce them, kick them or sink them and your drill bits will remain protected, extending their life

“Let me show you how it works”

Shock resistant

Water-tight

Clips to belt
